

The HAI Dock allows users to access music on an iPod through IP-enabled devices over a wired or wireless network. When connected to a Hi-Fi 2 by HAI distributed audio system, the connected iPod or iPhone becomes a source that can be played in any audio zone connected to the Hi-Fi 2.

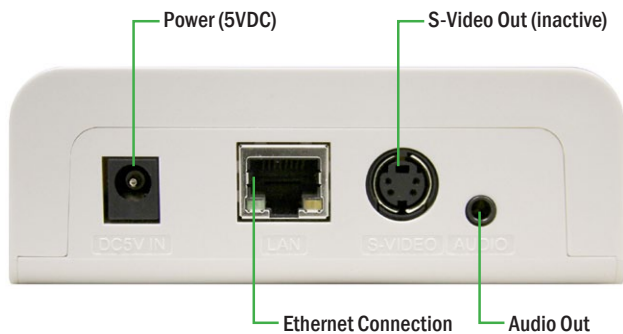

HAI PART NUMBER 96A00-1

FEATURES

- Designed for the Hi-Fi 2 by HAI distributed audio system
- Also supports NuVo, Russound, Xantech, Speakercraft, and Proficient
- Browse connected iPod/iPhone content from an HAI Touchscreen
- Wired 10/100 LAN connectivity; 802.11 b/g wireless option
- Configuration and firmware update capability via built-in web interface
- Includes configuration software with wireless setup for seven languages
- Also functions as a charger for an iPod or iPhone

REAR VIEW

The attached iPod/iPhone is controlled from IP-enabled devices including HAI OmniTouch IP-enabled Touchscreens and the Hi-Fi 2 by HAI. Metadata (e.g. playlist, genre, artist, album, and track) is sent to IP-enabled devices on the network and displays on Touchscreens and Hi-Fi 2 Volume Source Controls. Send the iPod control commands including play, pause, stop, next/previous track, rewind, fast forward, next/previous chapter. IP-enabled devices navigate and browse the iPod/iPhone music library by playlists, artists, albums, songs, podcasts, genres, composers, and audiobooks.

With the Hi-Fi 2 by HAI...

- Enjoy music on iPod in all zones while simultaneously charging its battery.
- See what's playing, pause, previous/next track on a Hi-Fi 2 VSC.

With an HAI Omni or Lumina and an OmniTouch 5.7e Touchscreen...

- Browse iPod playlist from HAI's IP-Based OmniTouch Touchscreens.
- View album art and control all zones.

With an iPod Touch, iPad, or Android...

- Control Hi-Fi 2 by HAI and HAI Dock remotely from iPod Touch, iPad, and Android devices.

The HAI Dock is compatible with HAI's OmniTouch 5.7e and 10pe Touchscreens when combined with an HAI Omni or Lumina controller and a supported distributed audio system. Supported audio systems include Hi-Fi by HAI, Hi-Fi 2 by HAI, NuVo, Russound, Xantech, Speakercraft, or Proficient.
